

INDISCRIMINATE USE OF MEDICINE CAUSED DEATH

CORONER MARRIOTT RENDERS
HIS VERDICT IN CASE OF
MINNIE GUNDER.

A QUIETUS ON UGLY RUMORS

Intense Feeling Has Been Aroused in
Kirkersville Over Death of
Young Woman.

The Advocate got into communication with Coroner L. L. Marriott Thursday afternoon when he announced his finding in the case of the sudden death of Miss Minnie Gunder of Kirkersville, which occurred on Friday, December 21st. The coroner's verdict in the case is to the effect that Miss Gunder met death by the indiscriminate use of drugs.

In Dr. Marriott's report of the case he states that the examining physicians, Drs. Kramer of Hebron, Leathman of Osville, and himself, found no conditions, abnormal or otherwise, which would, in any way, tend to implicate any persons other than the deceased, Minnie Gunder. This announcement will, no doubt, put a quietus on the fierce feeling in Kirkersville which has grown out of certain rumors which have been circulated to the effect that the drug with which Miss Gunder met death, believed to have been oil of tansy, purchased in this city, was bought by a married man of Kirkersville, with criminal intent.

Ever since the death of Miss Gunder, although she was highly respected in the village, there have been many ugly threats as a result of the connection of her name with the man referred to and it was for a time feared that it would be necessary for him to leave town. It is believed that, although the coroner's verdict completely exonerates everyone in any way connected with the case, it will be some time before the social condition of Kirkersville will be normal, because of the intensity of the feeling which has been aroused.

MRS. CHAS. HOLMAN THAW'S MOTHER-IN-LAW IMPORTANT WITNESS

Pittsburg, Jan. 3.—Mrs. Charles J. Holman, mother of Evelyn Nesbit Thaw, will testify against Harry Thaw in his trial for the killing of Architect Stanford White. Mrs. Holman made her attitude toward Thaw very clear today in an interview in which she said:

"My daughter expects me to testify in favor of her husband, but just wait. By the time my testimony is all in, I am afraid Evelyn and Harry will realize that I meant what I said some time ago."

Mrs. Holman said she had letters that would have an important bearing on the killing of White by Thaw.

"I shall present these letters at the trial," said Mrs. Holman, "and I am afraid they will not show my son-in-law in an enviable light. The fact that Harry Thaw is my son-in-law shall not prevent me from testifying if I am called upon."

"SHOOTING UP" BY BLACK BATTALION BEFORE SENATE

Washington, Jan. 3.—There is no longer much, if any, doubt that the Senate will order an immediate investigation of the discharge of the negro troops of the Twenty-fifth Infantry on account of their alleged participation in the "shooting-up" of the town of Brownsville, Texas. Senator Foraker, whose resolution authorizing the committee on Military Affairs to make an inquiry is pending, expressed the hope that the resolution would be adopted soon after the reconvening of Congress today and said that unless it was further attacked he would not make another speech on the subject at present.

It has been expected that Senator Lodge would oppose the inquiry, but he has recently stated that he would not do so. Unless therefore, opposition opens from an unexpected quarter the resolution probably will be passed today without debate.

Senator Warren, chairman of the committee on Military Affairs is not

courting the opportunity to conduct the inquiry but he has let it be understood that he would not oppose the passage of the resolution.

Even after the resolution is adopted the committee will still be in position to deny the investigation as the resolution is not mandatory, but no one believes that such a course will be taken. There is already discussion as to whether the committee will go to Texas or do its work in Washington, but the general impression is that witnesses will be brought to this city, and that all the sittings will be held here, the short time of the session remaining being insufficient to permit Senators to be absent from their other duties.

Washington, Jan. 3.—Advices received by Secretary of War Taft are to the effect that Mr. Purdy, the Assistant Attorney General, who has been in Brownsville, Texas, investigating the Twenty-fifth Infantry affair, and who is now in San Antonio in connection with the same matter, will conclude the investigation at the latter place today, and that, unless new witnesses present themselves, he will start back to Washington immediately thereafter.

8 INDICTMENTS AGAINST STANDARD ARE SUSTAINED

TRIAL OF CASE AGAINST OIL
TRUST WILL PROCEED AT
CHICAGO.

SAYS FEDERAL JUDGE LANDIS

Ruling of Court is Victory for the
Government in Prosecution of
the Trust.

(Bulletin.)
Chicago, Jan. 3.—Judge Landis of the Federal District court of Northern Illinois today sustained eight of the indictments returned against the Standard Oil company of Illinois, and dismissed two of them.

The ruling is a victory for the government in the preliminary stage of the prosecution of the corporation for receiving concessions equivalent to rebates in the remission of storage and freight charges.

The indictments charge co-operation with receiving concessions, equivalent to rebates in the remission of storage charges. Attorneys for the defense in this action argued that the Elkins law under which the indictments were returned, was annulled by the new rate law. This contention was overruled by the decision. The two indictments thrown out did not negative the existence of a lower joint through rate than the one alleged. The trial of the case upon the eight indictments sustained will proceed at once.

MAN IS FOUND WHO SAW DONA GILMAN GET OFF STREET CAR

Dayton, O., Jan. 3.—The mysterious stranger who got off the same car on which Dona Gilman rode on the night she is supposed to have been murdered has been found. He is Ira Shunk. It has been the accepted belief up to this time that he was a negro. Shunk is white, and his statement clears up mystery surrounding Dona's arrival at Groveland avenue. He says: "I rode home on the car with Dona Gilman on the night of the murder."

"I expected to get off the car at the next stop after Groveland so I walked to the back platform of the car just as she stepped off."

"I saw her raise her umbrella and hesitate while another car passed. I was afraid the car might strike her and I believe I called to her to take care. I saw her cross to the west side of Cortland avenue and start up the cement walk toward her home."

SALARY TOO LIGHT

ARMY CANTEN

Washington, D. C., Jan. 3.—Yards of petitions bearing the signatures of nearly every member of the Spanish war veterans will be dumped onto Congress in the next week or so, praying for the restoration of the army canteen. Captain Mitchell, secretary of the organization, intends to push the matter vigorously.

(Bulletin.)

Odessa, Russia, Jan. 3.—Enormous loss of life and immense damage to property have been wrought by the terrible blizzards which are raging throughout Southern Russia. In one province 160 deaths have occurred, due to the storm. The death toll will run equally high in other provinces. Huge drifts of snow block the railways and highways.

DEMAND AMERICAN TROOPS.
Havana, Jan. 3.—The possibility of the withdrawal of United States troops from Cuba at no far distant date has so alarmed the bankers that they issued an announcement in the event of withdrawal of Uncle Sam's protection they will refuse to make loans on crops.

TWO MEN KILLED.
Stouffville, Jan. 3.—John Taylorson, a miner, was killed by the electric current at the Ohio and Pennsylvania Coal company's mine at Amsterdam today. Mike Ribitz was killed on the Lake Erie and Western road at Piney Fork last night.

EFFORT TO DEFEAT GOV. HUGHES' PLANS

Washington, Jan. 3.—Great corporate and political influence will be brought to bear to defeat the radical reforms recommended by Governor Hughes in his message to the New York legislature.

Leaders of both parties here predict that Albany will become the battle ground where the trusts will make a firm stand to defeat the proposed reforms. President Roosevelt feels that victory for the trusts at Albany spells defeat for reforms in other states. Although the President is not openly actively aiding Hughes, it is believed he will make it known strongly that he favors Hughes' recommendation.

GOV. FLOYD INAUGURATED.
Concord, N. H., Jan. 3.—Chas. M. Floyd of Manchester who was elected governor by the state legislature yesterday, was inaugurated this afternoon. The choice of a governor by the legislature was made necessary by the fact that although Floyd received more votes than any other candidate at the November election he did not get a majority.

KNEADED WITH FEET.

Albany, N. Y., Jan. 3.—New York City still cats considerable bread that is kneaded with the feet. This is the startling statement contained in the report of P. Tecumseh Sherman, state commissioner of labor. In numerous Italian shops in the metropolis, he states, most of the dough is foot kneaded.

PREFECT OF POLICE IS ASSASSINATED IN ST. PETERSBURG

St. Petersburg, Jan. 3.—Major General Vonderlaunitz prefect of police, and practical dictator of St. Petersburg since the dissolution of the Douma, was shot and killed today at the institute of experimental medicine by a young man. The prefect was in his carriage when the fatal shots were fired.

Vonderlaunitz has long been an object of hate to the terrorists. His powers were enormous and searches and arrests were made at his order without process of law. Newspapers were suppressed and persons deported by his command.

He played an active part in political affairs having issued a manifesto to the people after the dissolution of the Douma explaining that the deputies did not represent the honest sentiment of the country and the dissolution was to give a chance to elect men who did represent the people. On mere pretext he refused to recognize the legality of both the Constitutional, Democratic and Octoberist parties and he kept up an active pursuit of agitators that filled the prisons.

WOMAN WHO WAS KEPT IN MAD HOUSE SEVENTEEN YEARS.

MRS. ELIZABETH MILLER

New York, Jan. 3.—Breaking the silence of years Mrs. Elizabeth Miller, mother of Ida May Miller Kuehn, the "lost Philadelphia heiress," told for the first time a remarkable story of 17 years' incarceration in an insane asylum, of inhumanities she suffered at the hands of her husband, of estate juggling, missing property and of an alleged conspiracy which has deprived her of approximately \$100,000.

She declares she was never out of her mind, although she spent 17 years in an asylum in Norristown, Pa. Her husband sent her there, she says, because he wanted to get her out of the way.

Possessed of a good fortune under the terms of her husband's will, she has received only \$200, she says, since his death. There is nothing about her to suggest insanity. On the contrary,

she talks fluently and gives every evidence of a strong, alert mentality.

"My story," she said, "is merely the record of a wrecked life, and it would have remained my own secret but for the unfortunate marriage of my daughter. So many untruths have been printed about me that I will gladly make public a few facts. As to my being insane, I will let you make your own inferences. I never have been irresponsible, although I confess I willingly spent many years in an asylum—anything was heaven compared with the life I led with my husband during the years that he laid the foundation for the fortune which has been the subject of so much discussion."

FOR THE WRECK ON ROCK ISLAND

Telegraph Operator Is Blamed by the
Railroad Officials.

YOUTH NOW UNDER ARREST

Majority of the Thirty-Odd Victims of the Disaster Were Pinioned in the Debris and Roasted Alive—The Latest Details of the Kansas Catastrophe.

Topeka, Kan., Jan. 3.—In the collision between two passenger trains on the Chicago, Rock Island & Pacific railroad, two Americans, a negro porter and 30 Mexican laborers lost their lives. More than 50 persons were injured. The Mexicans were on their way from Iowa to their native land. Officials of the railroad company place the blame on John Lynes, a 19-year-old telegraph operator at Volland, who failed to stop train No. 29 after receiving orders to hold it until No. 30 had passed. Lynes was arrested.

The wreck occurred on a grade on a curve and in a cut. Number 29 was running slow on account of the heavy grade and heavy train. Number 29 had just reached the top of the hill when the engineer saw the reflection of the headlight of the train ahead. He shut down, and the passengers on his train said they were not running more than 10 miles an hour when the crash occurred. Number 29 was not going more than 15 miles per hour. All of the dead except one were on train No. 29. As far as definitely known only two Americans were killed, one tramp riding the blind baggage of No. 29 and one man in the smoking car with the Mexicans. There were 37 Mexicans in the car. All except seven were burned to death, the officials say. Seven were put on the relief train and two died shortly after the train left the town of McFarland.

The injuries were caused more by the emergency brakes than by the wreck itself, according to the passengers. The engineer of No. 29 set the brakes and almost every passenger was thrown out of his seat or out of the train.

Immediately came the collision. The Mexicans were pinioned under the seats and the doors were jammed so they could not get out. In the chair car also many passengers were held down by the seats.

The train caught fire from the gas tanks. The passengers in the rear car escaped in their night clothes and dressed in the mud beside the tracks. Then came cries for help from the Mexicans and the persons pinioned in the chair car. Every man and nearly every woman on the train helped rescue the unfortunates. Seven Mexicans

were rescued from the smother and then the flames drove the rescuers back. By light of flaming wreckage, passengers who were uninjured worked heroically to save those who were pinned fast beneath the splintered timbers and twisted from work. The lack of tools with which to chop away the sides of the cars was a great hindrance. In an hour and a half from the time of the wreck the first relief train, from McFarland, Kan., bringing surgeons and helpers, reached the scene. Another relief train from Topeka and two wrecking trains soon arrived, and all of the dead and injured that had been taken from the wreck were brought to this city.

OPERATOR

Makes Statement Before the Clerk of
the District Court.

Topeka, Kan., Jan. 3.—John Lynes, 19, the telegraph operator at Volland, who fled after letting No. 29 get by him, was arrested at Alma, 10 miles away. There, after making a statement before the clerk of the district court, he was placed in jail. Lynes said: "I had been awake all night and was perfectly sober. Number 29 headed into the east switch to let No. 14 pass, backed out of east switch and headed down the main line. I thought it was going to stop at the depot to take water, but instead it went by at about six to ten miles an hour. Both boards were at 'danger.' I cleared No. 14 by pulling down the right-hand board for that train, leaving the west-bound board at 'danger,' but No. 29 did not stop and I ran out with my lantern, but with two swings across the track it went out. I then ran to the pump-house, grabbing the pumpers' lantern, waved a few times, and it also went out. I also called the pumper, telling him what had happened. I told the dispatcher that I was coming to Topeka, and was trying to get there."

MRS. MILLER WHEN 26 YEARS OLD

husband, Mr. Miller was a shrewd dealer.

"Dr. Kuehn's feeling for me was well defined when I called at my daughter's house some time ago and asked if she was there. He slammed the door in my face. The whole matter of the estate is an outrage and when it is proved there will be a big scandal. I understand Dr. Kuehn already has evidence showing that forgery has been committed by certain persons connected with the property."

"I expect to see my daughter. She telephoned that she would call on me before she left for Philadelphia, but she did not come. She is completely under the influence of Dr. Kuehn. There is no hypocrisy about it. She is an unsophisticated girl, and it was an easy matter, no doubt, for a man of the world like Dr. Kuehn to win her affection."

FRAUD ORDER IS SOUGHT

Charges Filed Against the New York
Cotton Exchange.

HEARING LIKELY TO BE HAD

President of Southern Cotton Association Accuses Members of Exchange of Sharp Practices—Would Have Them Barred From the Use of the United States Mails.

Washington, Jan. 3.—Representative Livingston of Georgia and Harvie Jordan, president of the Southern Cotton association, of Atlanta, filed with Postmaster General Cortelyou charges of fraud against the officials and members of the New York Cotton Exchange.

Complainants make the request that the department issue a fraud order against the officials and members of the New York Cotton Exchange to bar them from the use of the United States mails in conducting what are termed fraudulent practices. The postmaster general referred his callers to Judge Goodwin, assistant attorney general for the postoffice department.

It is charged that New York City has ceased to be a commercial spot cotton market and that the New York Cotton Exchange has developed into a purely speculative or gambling exchange, and that the grades of cotton shipped to New York and tenderable on the contracts under the rules of the New York Cotton Exchange can not be used for commercial spinning, and that such grades "are used solely to depress the price of spinnable grades in the south; to further the speculative features of the New York Cotton Exchange, to the heavy detriment of the entire legitimate cotton trade of the United States." It is further charged in petition that the New York Cotton Exchange is daily using the United States mails to transmit and advertise its business to the legitimate cotton trade of the United States, and "we charge that this business is fraudulent and that the officials and members of the New York Cotton Exchange should be denied the use of the United States mails."

The petition also says: "We charge further that the official daily quotations sent out through the United States mails by the officers and members of the New York Cotton Exchange, both as to 'futures' and 'spot' prices, are fraudulent, in that neither represents the true and actual value of spot cotton, but that the same are from \$5 to \$7.50 per bale less than the market prices at which spinnable grades of cotton could be purchased in the south and shipped to New York for tender on said fraudulent contracts."

FINDLAY MAN NOW ENGINEER ON THE ISTHMUS

WRITES THAT PEOPLE WILL BE
STARTLED WHEN ALL FACTS
ARE TOLD.

MUCH GRAFT IN BIG DITCH

Big Amounts Expended for Engines
Which Are Never Used But
Allowed to Rust.

Findlay, O., Jan. 3.—Oliver W. Sager of Hancock county, a young man employed as an engineer in the construction of the Panama canal, writes some that graft is omnipresent on the isthmus and before the United States government is through with building the "big ditch" the cost will be fully a billion and a half dollars. He declares that enormous amounts are expended for engines never used, but left exposed to the elements, which soon leave them fit for nothing but the junk pile. Mr. Sager predicts that as soon as outsiders who are not "in" on the graft, make an investigation the United States will be startled by one of the greatest scandals in recent years.

COURT'S RULING ON AIKIN LAW

HOLDS ITS VALIDITY CAN NOT
BE ATTACKED BY ORAL
EVIDENCE.

Must be Done by Record—Case Will
Be Carried to the Supreme
Court.

Cincinnati, Jan. 2.—In sustaining the validity of the Aikin law, passed during the last session of the legislature, to increase the saloon license tax from \$350 to \$1,000 per annum, the superior court of this city based its decision on the doctrine that a legislative record which appears to be properly verified can not be attacked by parol evidence. The court held: "For obvious reasons of public policy, it is incumbent on one who attacks the validity of a law upon the ground that the proper steps were not taken in its passage, to show this by legislative record. Under the constitution as amended the participation of the governor necessary to give validity to laws enacted by the legislature is legislative function to the extent of bringing the official record of his action, within the rule of omnia rite acta presumuntur (the acts are presumed to be right), which applied with the strongest possible force to legislative records. The records here presented affirmatively show compliance with the constitution, and the law passed pursuant thereto, and imparts absolute verity. The burden of proof to show invalidity has not been sustained in this case and can not be sustained by parol testimony."

The case will be at once taken to the supreme court. The plaintiff is Bernard Wrede, a saloon keeper of Cincinnati, who sought to enjoin the collection of the increased tax. By consent of all concerned this was regarded as a test case. Depositions were taken by the plaintiff's counsel in an effort to show that Governor Patterson was at the time of the passage of the bill, and continuously to his death, in such a condition of health that the Aikin bill and the long list of bills which followed it to the residence of the governor were not submitted to him, and that he could not have been aware of their contents; consequently not only was the bill directly concerned in this case a nullity, but that every law made since that bill was presented was void.

Valparaiso, Jan. 1.—The city of Africa was shaken at half-past one o'clock Wednesday, lasting 55 seconds. No house was left without damage. Fire started in a grocery, but was extinguished with considerable difficulty on account of lack of water. Many persons were wounded or bruised, but no deaths are recorded. The earthquake was felt with intensity in Iquique, where clocks were stopped. The panic was enormous in the affected region, where the people thought the shock was a repetition of the Valparaiso disaster.

WRANGLING

Are the Inspectors and Counting of Ballots is Delayed. New York, Jan. 3.—Although two weeks have now elapsed since the votes were cast in the New York and Mutual Life elections, the board of inspectors appointed by Superintendent Kelsey of the state insurance department to canvass the vote in the former institution has not counted a single ballot. The fundamental trouble at the New York Life, however, involves not merely the failure to count any votes up to this time, but an open split among the inspectors themselves over the question of procedure, which has threatened to disrupt the board entirely several times.

COSTLY CITY OWNERSHIP

Ithaca Must Pay Twice What It Bid for Water Plant.

Ithaca, Jan. 3.—Commissioners have decided that the city of Ithaca must pay the old water company \$660,000, with interest from January 1, 1905, for the plant it took over under the municipal ownership plan. With the costs and the money expended for improvements since the property was acquired the plant will cost the city \$900,000. The decision is in favor of the water company, which offered to sell for \$605,000. The city's offer was \$450,000. The case has dragged along two years, piling up costs to the city of \$57,000. Marrying a girl against the wishes of her parents is, next to murder, the most severely punishable crimes in Lapland. An oil gusher flowing 1,920 barrels a day, exceeding anything on record in Indian Territory oil fields, was brought in near Sapulpa.

J. L. KNIGHT Returns Thanks to His Thoughtful Hopewell Twp. Neighbors Who Kindly Surprised Him.

J. L. Knight wishes to return thanks to his neighbors and friends, who so kindly surprised him on New Year's day with a "wood chopping." Through the kindly efforts of Mr. Elmer Richardson invitations were extended and responded to by eleven of the nearer neighbors. They came in a body, cut, split and hauled wood enough to supply fuel for the next twelve months. Mr. Knight feels very grateful for this kindness, and for many other courtesies extended to the family by the residents of this part of the county. No one could be more thoughtful to the wants of strangers than these same people, and it is a pleasure to reside among them.

Oil painting was an art thoroughly understood by the ancients, but was lost sight of, and only revived about the end of the thirteenth century, A.D.

HIS MAJESTY AND THE MAID.

Miss Emerson who appears to-night at the Auditorium has a relative who is absent minded. Not long ago it began to rain just as this relative was starting for New York. Going back for her umbrella it occurred to her that there were a number of others in the house that needed mending. Taking them with her, on her arrival in the city she left them and as it had stopped raining left her own also, thinking that she would call for them later. Going out of a restaurant after dining she absent mindedly picked up an umbrella and started out with it, but before she could reach the door, an indignant feminine voice stopped her, saying, "Madame, that is my umbrella." Apologizing, she returned it to its owner, with "I forgot I didn't bring mine in," and not stopping to hear the other's half finished "I've a mind to—" went out to do some more shopping. Later she called for her mended umbrella and with her arms full entered the train just as it was about to pull out. Dropping into the first vacant seat she found it partly occupied by the woman with whom she had had the adventure in the restaurant. Looking up the woman recognized her and seeing the numerous umbrellas in her arms said meaningfully, "Ah, I see that you've had a good day after all." Thursday January 3.

THE LOVE LETTER.

"The Love Letter" is a typical Sardou creation, and had its original

novel parts and artistic construction, and because its stellar role so exactly fitted the nervous and energetic character of Miss Harned. It is produced under the capable direction of "Jack" Hoffman, whose mastery of the detail of action has brought it out of rehearsal a finished force of the type which has been so much in demand on the American stage for the past eight or ten years.

"The Love Letter" is in three acts, and its movement is as swift as the telling of the story, which is supposed to be complete in the space of one day. The plot hinges upon the discovery of a love letter in an old bureau, by Husband No. 2 of Madame Revillon, which arouses suspicion and leads to an infinite variety of complicated comedy situations, together with some dramatic disclosures which bring out all the force of Miss Harned's characteristic reading. The success of the piece lies in the rapidity of action, the situations shifting with kaleidoscopic swiftness—and it is in this sort of interpretation that Miss Harned is at her best. Auditorium, Saturday night, Jan. 5.

THE LILAC ROOM.

Whoever has been in love will like "The Lilac Room". Whoever believes in ghosts will love "The Lilac Room". Whoever enjoys a stirring detective story will go wild over "The Lilac Room". None who like to see a good play, beautifully mounted and perfectly acted, can afford to miss "The Lilac Room". It is at one and the same time a play of

the Auditorium on Monday that charming woman and splendid actress, Amelia Bingham, giving her the best medium for the exhibition of her talents she has had since her memorable engagement of a solid year at the Bijou theater, New York, in Clyde Fitch's "The Climbers". "The Lilac Room" was written especially for Miss Bingham by Evelyn Greenleaf Sutherland and Beulah Marie Dix, authors of Richard Mansfield's best romantic play, "Monsieur Beaucaire." The authors have fitted Miss Bingham perfectly, giving free scope for her natural comedy, and affording ample opportunity for display of the individual force and emotional sweep of which she is the well known mistress.

DON'T WAIT.

Take Advantage of Newark Citizen's Experience Before It's Too Late. When the back begins to ache.

Don't wait until backache becomes chronic; Till serious kidney troubles develop; Till urinary troubles destroy night's rest.

Profit by a Newark citizen's experience. G. W. Harter, living at Thornville, R. F. D., No. 5, well known in Newark, O., says: "For several years I suffered with a complication of kidney, rheumatism and urinary troubles, and physicians could not help me. In spite of all the medicines I used I grew continually worse. My back became so weak I could scarcely get about and there was a constant dull heavy aching in the small of the back, varied with occasional sharp shooting twinges like knife thrusts that almost paralyzed me. I expected that I would never be able to get rid of the trouble but in talking about my case with Mr. Crayton, the Newark druggist, he advised me to try Doan's Kidney Pills, saying he had known of many of his customers who had used Doan's Kidney Pills for the same troubles and had found great relief. I got a box from him, went home and began using them. To make a long story short, they cured me and the cure has been a permanent one. I have had no more backache, my back is strong, the kidney secretions are regular and normal, and I attribute my present good health to the use of Doan's Kidney Pills."

SAYS THIS

RELIEVES BACKACHE.

A well-known authority says that Backache is often Nature's danger signal which notifies the sufferer that the kidneys are sick.

The following simple home-made mixture is said to relieve backache and cleanse and build up the kidneys, if taken before the stage of Bright's disease: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Mix by shaking well in a bottle and take in teaspoonful doses after meals and at bedtime.

A well-known local druggist is authority that these ingredients are mainly of vegetable extraction and harmless to use, and can be obtained at small cost from any good prescription pharmacy. Those who think they have kidney trouble or suffer with lame back or weak bladder, should give this prescription a trial, as no harm can possibly follow its use, and it is said to do wonders for some people.

BAN IS PUT ON BOYS' AIR GUNS

SEVERAL YOUNGSTERS ARE UP BEFORE MAYOR FOR RECKLESS SHOOTING.

Cases, However, Have All Been Referred to Juvenile Court Judge Brister Presiding.

Mayor McCleery has started a crusade on the air gun as handled by the average Young American, and His Honor has enlisted the services of Officers Zergiebel and Carroll to assist in the fight to abolish their use in the city limits.

A large number of complaints have reached the mayor's office especially since Christmas. Old Santa Claus seems to have had a goodly supply of air guns in his pack when he struck Newark, and about every other boy one meets is carrying a gun.

The result is that windows and birds and small children's eyes and cats and dogs and various other objects, living and otherwise, have suffered from the pest. The mayor ordered a bunch of boys brought in, and Officers Carroll and Zergiebel responded by corralling Ray Offenhacher, Russell Ricketts, Carl Stough, George Ross, George Fessler and Ray Matyes. These boys all reside in the vicinity of Sixth and Canal streets, and the chief complainant is Mrs. Daugherty of Canal street. She states that the boys broke windows in her house. The matter was referred to the juvenile court, all the boys being taken before Judge Brister.

It looks like the officials were starting at the wrong end of the difficulty in this affair. There is no doubt that the air guns are dangerous when handled by a careless boy. In nearly every case the boys received the guns for Christmas presents, and the court confiscated the weapons.

Now the boys are without their Christmas presents, and the money invested has practically been thrown away. If the use of the air guns is to be prohibited, it would be well to stop the sale of them by dealers.

Judge Brister heard the plea of guilty repeated by the boys. He gave them all a good lecture and let them go on their promise of good behavior. The court confiscated the rifles and stacked them up in one corner of the court room, which presents the appearance of an armory.

A perfect breakfast is impossible without it and it's just as good three times a day. It gives you real nourishment and renewed vitality. For Malta-Vita is rich in nutrition—every nutritive element of the best white wheat and finest barley malt extract. Thermal extract, mixed with the flaked wheat, converts the starch of the wheat into maltose, or malt sugar, makes it easy for even the weakest stomach to digest and adds a pleasing taste which cannot be found in grain foods containing some foreign and adulterative sweetening agent.

was that of Wednesday night, January 2, the occasion being the installation of the officers-elect. District Grand Lodge Deputy P. L. Pratt of Newark, was the installing officer, and the officers installed were as follows:

C. C.—W. A. Mitchell.
V. C.—Fred Siegel.
Prelate—Robert Goodrich.
M. of W.—Clifford Case.
M. at A.—J. A. Norris.
I. G.—Wm. Brickles.
O. G.—Archie Piper.
M. of E.—Erie Perry.
M. of F.—John Thomas.
K. of R. S.—Prof. Harvey Williams.

After the business of the lodge had been finished the brothers repaired to the dining room, where an elegant banquet was served by attentive and competent waiters. While enjoying the rich collation the members also entered heartily into the social feature of the occasion, and happiness beamed in every countenance, and when the menu was finished some flights of oratory were indulged in, and altogether a genuine good time was had. Suppers are getting to be of frequent occurrence, and it is believed that nothing conduces more to the keeping up of that friendship and sociability which should exist everywhere in the order.

Miss Margaret Thomas of Columbus, after a short visit with friends in the village, has returned to her home in Columbus.

Mrs. Griffith Jones, residing three miles south of Granville, has been quite sick for some days.

Mrs. Charles Thornton and daughters, who have been spending the Christmas season with friends and relatives in Toledo, have returned home.

Russian Budget.

St. Petersburg, Jan. 3.—The preliminary budget estimates prepared by the ministry of finance for the first six months of 1907, commencing Jan. 14, provide \$523,415,000 for regular expenditures, an increase of \$18,896,000, or 3.7 per cent, compared with the same period of 1906. The greater part of the increase will be absorbed by interest on the big loan of 1906, which increased the total interest from \$11,038,000 to \$94,730,000.

Reject Operators' Proposition.

Goldfield, Nev., Jan. 3.—The miners' union voted to lay on the table the mine operators' proposition for a new schedule of wages. It is said that neither side thought the proposition would be accepted, as the offer is lower than the pay the miners had before the strike commenced. The miners apparently are willing to wait. The big operators are apparently willing to remain closed. The lessers and small mine owners are becoming restless and threaten to start a new schedule.

Tokio is to have an international exhibition next year, from January 1 to September 30. This is in addition to the large exposition fixed for 1910.

BOWLING NOTES.

A duck pin tourney on the Music Hall alleys is the newest feature to be introduced by Manager Baker. The tournament will be open to Newark bowlers only and lots of amusement will be enjoyed by the local bowlers in this contest. Duck pin is a game of luck largely and a poor bowler has as good a show as a good bowler.

Armstrong and Baker are after some of the good bowlers in Southeastern Ohio and have taken on a match game with Wurster and Richards of Zanesville. This contest will consist of ten games, the first five to be rolled on the Zanesville alleys Monday, January 7. The next five games will be rolled in Newark during the latter part of the same week. A purse of \$50 is posted to go to the team making the greatest number of pins in the two games.

This looks like easy money again and the Newark team is already planning how to spend it. Both Baker and Armstrong are good bowlers and the Zanesville lads will have to go some to make a showing against Newark.

All the leading hotels, restaurants, and dining cars serve Mrs. Austin's Pancakes for breakfast. Much better than others.

Nearly 5 per cent of the students in German universities are foreigners.

DURING THE RACES

One of the interesting events to the students at Cambridge is the annual trial of the eights, which takes place some time after the school year has begun, and which serves in a measure the personnel of the varsity crew which represents all the colleges in the annual race against Oxford. Considering the narrowness of the Cam it is something of a wonder that Cambridge does so well on the water, and it is certainly greatly to the credit of the patience and the perseverance of the light blue that they send such competent oarsmen to the Thames each year. The trials are certainly picked from the best material at the university for rowing, and they are handled by graduates, who give the new men the benefit of their advice and experience. Cambridge has been very successful in three out of the last four seasons, winning twice when it was generally expected that Oxford would win. The trial crews this year are made up of good men and Cambridge has hope of winning the varsity in 1907.

J. Flanagan establishing new weight record

NEW YORK, Jan. 3.—The reception tendered by the United States Irish-American Societies of New York to those two great Celtic athletes—John Flanagan and Martin Sheridan—at the Grand Central Palace was one of the greatest tributes to men of brain ever witnessed in this country. The two men whom their countrymen wished to honor were escorted to the Palace by the First Regiment of Irish Volunteers, in parade uniform.

The presentation to the guests of the night of two bronze statues of themselves was made by Daniel F. Cohan, who recited the glorious achievements of the two athletes, after which the night was given up to dancing. The boxes were taken by notable men in every walk of life in the city. Most of the county organizations were represented.

CAR SHORTAGE CAUSE LEARNED

INVESTIGATION OF WASHINGTON WRECK STILL IN PROGRESS BEFORE CORONER.

Cassatt's Estate—Demand of Engineers—Local and General Railway Affairs.

Washington, Jan. 3.—The causes, but not the cure, for the car shortage in the northwest and the consequent coal famine, have been determined by members of the interstate commerce commission participating in the recent hearings at Chicago and Minneapolis. Franklin M. Lane, who served as chairman of the investigating commission, filed his report with the commission and sent it to President Roosevelt.

The report of the commissioner first deals with the coal famine in North Dakota and presents the conditions of distress found in that state. Consideration of proposed remedies are dealt with extensively, as well as a proposed plan for a car clearing house or car pool and reciprocal car demurrage. Financial loss is shown to have been caused by the failure of railroads to prepare for a large movement of grain. One popular remedy for the failure of carriers to furnish cars when demanded is known as "reciprocal car demurrage." This phrase means that carriers shall be penalized upon failure to furnish cars and it arises from the universal railroad practice of imposing a per diem penalty when a car is held by a consignee for unloading beyond a certain fixed number of days.

The need for additional legislation to reach the seat of the trouble is shown by the conclusion of the report, wherein it is said: "If the interstate commerce commission is to be vested with power to make rules under which railroads shall be required, upon penalty, to furnish cars to shippers, this commission should also be empowered to make rules under which free interchange of cars shall be effected, or to require railroads engaging in interstate commerce to make such rules for their own protection and provide for their enforcement."

Investigating B. & O. Wreck.

Washington, Jan. 3.—An investigation to fix the responsibility for the wreck on the Baltimore and Ohio railroad at Terra Cotta, D. C., Sunday night, was begun here before a coroner's jury. The principal witnesses were three officials of the road, none of whom could give any reason for the wreck. Nearly fifty witnesses have been summoned, and the inquiry promises to occupy the entire week. Engineer Hildebrand and the other members of the train crew of the "dead" train, which telescoped the passenger train, and who are under arrest, were in the room when the inquest began, but were later excluded.

Cassatt Estate.

Philadelphia, Jan. 3.—Counsel for the estate of the late A. J. Cassatt issued a statement that Mr. Cassatt left his entire estate to Mrs. Cassatt and his children. The children are Captain Edward B. Cassatt, Robert K. Cassatt and Mrs. W. P. Stewart. Mrs. Cassatt, the children and the Fidelity Trust company of Philadelphia are appointed executors. No value was set on the estate.

Demand of Engineers.

Chicago, Jan. 3.—Demands on all railroads operating west of this city for an increase in wages and an eight-hour day were made by 57,000 locomotive engineers, through their representatives, at a conference with the railroad managers.

Trainmen Killed.

Livingston, Mont., Jan. 3.—A wreck occurred at Coal Spur, a station on the Northern Pacific, 12 miles west of this city, in which two trainmen were killed. The men were riding in the caboose of an extra east. Just as the extra had secured orders to enter the block east and was pulling out the train was struck by two light engines. From the evidence given to the coroner's jury it seems that the wreck was due to Operator J. S. Brady at Hoppers permitting the light engines to enter the block before he got a clear block from Coal Spur.

Long Live the King.

Is the popular cry throughout European countries; while in America the cry of the present day is "Long live Dr. King's New Discovery, King of Throat and Lung Remedies!" of which Mrs. Julia Ryder Paine, Truro, Mass., says: "It never fails to give immediate relief and to quickly cure a cough or cold." Mrs. Paine's opinion is shared by a majority of the inhabitants of this country. New Discovery cures weak lungs and sore throats after all other remedies have failed; and for coughs and colds it's the only sure cure. Guaranteed by F. D. Rall, Druggist. 50c and \$1.00. QUINTET LEAGUE OPENS SEASON

SCORES WERE LOW BUT GAME WAS INTERESTING FROM START TO FINISH.

Echo Club Defeated by the Spring Club in Ten Pin League—Another Match Game.

The crowd at the Music Hall for the opening game of the City Quintet league was another record breaker. The interest stirred up in the alley games this season has not been equalled for years. The Calumets won two of the games and the games were close and interesting though the scores were small. Regardless of the facts that the Calumets took two games, the Peers club won out in the total pins. The score:

BOWLING NOTES.

A duck pin tourney on the Music Hall alleys is the newest feature to be introduced by Manager Baker. The tournament will be open to Newark bowlers only and lots of amusement will be enjoyed by the local bowlers in this contest. Duck pin is a game of luck largely and a poor bowler has as good a show as a good bowler.

Armstrong and Baker are after some of the good bowlers in Southeastern Ohio and have taken on a match game with Wurster and Richards of Zanesville. This contest will consist of ten games, the first five to be rolled on the Zanesville alleys Monday, January 7. The next five games will be rolled in Newark during the latter part of the same week. A purse of \$50 is posted to go to the team making the greatest number of pins in the two games.

This looks like easy money again and the Newark team is already planning how to spend it. Both Baker and Armstrong are good bowlers and the Zanesville lads will have to go some to make a showing against Newark.

All the leading hotels, restaurants, and dining cars serve Mrs. Austin's Pancakes for breakfast. Much better than others.

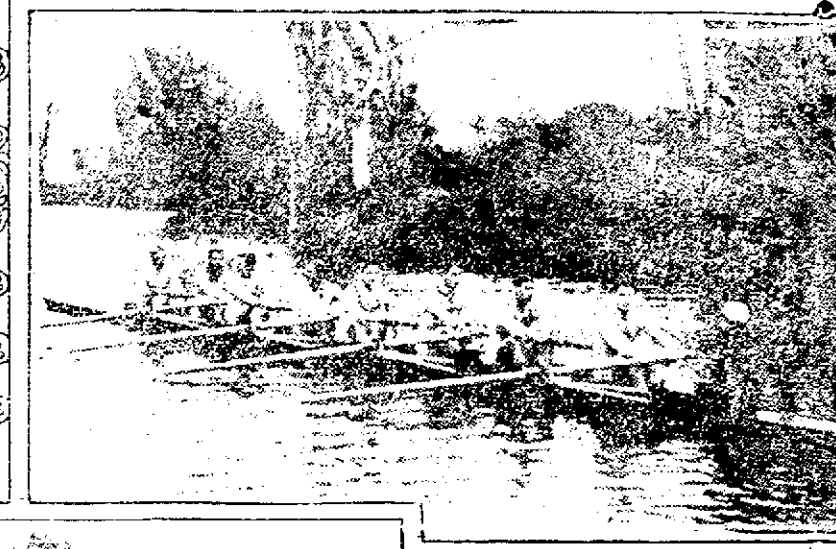

Found in the Lake. New York, Jan. 2.—The body of Robert Dunlop, a noted Scotch professional golfer, was found in the lake in Van Cortlandt park. Dunlop had been missing for several weeks. He was about 37 years old and came to this country last July, when he entered a tourney at the New York Golf club. It is not believed that he committed suicide.

Hanged Himself in Jail. Owatonna, Minn., Jan. 3.—Fred Zimmerman, accused of shooting Mrs. Quam at her home, committed suicide by hanging himself in his cell in the Steel county jail.

WHEN "NICK" MADE MAIDEN SPEECH HERE

The following good one on Congressman "Nick" Longworth is being reproduced in the latest edition of the Saturday Evening Post:

At the banquet of the Ohio Company given in Marietta on October 18, the day a bronze tablet commemorating the first permanent settlement in the territory northwest of the Ohio was unveiled, Congressman "Nick" Longworth told about a first attempt to make a stump speech. Mark Hanna was traveling through the state on a special car, and Longworth was one of the lesser lights of the party. Very early one morning the special arrived at Newark, Ohio, where a crowd was already assembled, and to appease their demands for a speech, Longworth—the only man up—was asked to go out on the rear platform and hold the crowd. He said he walked out on the rear platform and in his best voice began: "Ladies and gentlemen—"

Just then a limited whizzed by and his first sentence hung fire. Beginning again he repeated: "Ladies and gentlemen—"

A switch engine across the railroad yard got in motion at this point and its whistle punctuated "Nick's" opening words with shrill shrieks and shrieks. Considerably frustrated, but holding himself well in hand, the orator once more began his speech: "Ladies and gentlemen—"

It was no use. A freight train, a mile long if it was an inch, came rumbling and clanking down the yard, and the interruption was of such duration that the crowd got restless, and "Nick" to keep it from disgracing entirely, shouted at the top of his lungs:

"You people don't need any speech making. There are too many of you. Look at the length of that freight train—"

But a voice in the rear of the crowd shouted back: "Say, young fellow, what yer givin' us them's emities?"

And Longworth disappeared into the crowd.

WHEELER YOUNG IS LEGALLY DEAD

ADMINISTRATOR IS APPOINTED FOR ESTATE OF MISSING SHERIFF.

Disappeared Seven Years Ago and Now His Brother Takes Charge of His Property.

Legally dead, yet probably alive, is Wheeler Young, ex-sheriff of Franklin county. Seven years ago on the 31st day of December, Young absconded from Columbus and has not since been seen.

A new law enacted by the last legislature provides that a man is legally dead who has been absent for seven years without news from him, and on Wednesday M. E. Thraikill, representing Ed Young, brother of Wheeler Young, applied to the Probate court in Columbus to have an administrator appointed, and upon representation of his seven years' disappearance Young was declared dead, and Attorney John R. Horst was appointed his administrator. This is a rather unique case, and is the first of its kind in Franklin county. Young's estate consists of a 105 acre farm at Harrisburg, and about \$17,000 of unpaid costs. Since Young's disappearance his wife has secured a divorce and his brother becomes his heir.

DAVIS ARRESTED BY B. & O. OFFICER LODGED IN JAIL

PLAN TO MAKE PASSENGERS THINK HE HAD SAVED A WRECK.

Chief of Police Bennett of the B. & O., arrested Jody Davis, aged 17 years, at Butler, Tuesday morning for attempting to wreck B. & O. passenger train No. 7, the fast line from Baltimore to Chicago. The alleged attempt to wreck the train was made at Spring Mills, near Mansfield, O., and Davis is believed to have failed in a carefully planned effort to put himself in the limelight and pose as a hero as well as getting a good reward from the passengers on the train, and a good position on the road. The railroad officials state that Davis placed obstructions on the track and then flagged the train before the engine struck a pile of logs, placed on the rail.

Davis' first story told to the officers was that his partner and another man had planned to wreck the train and that he (Davis) was with them at first, but he changed his mind and decided to save the train.

Officer Bennett put the prisoner through a severe physical examination and Davis finally admitted that no one else was implicated in the job and that his whole story was a fabrication. He then admitted that he placed the obstruction on the track and flagged the train believing the passengers would reward him with a big purse and that the railroad company would give him a good job. He is now in jail at Mansfield, awaiting the action of the grand jury.

ACID IN BREAD

Four Men Said to be Members of Bakers' Union Arrested in Chicago on Serious Charge.

Chicago, Jan. 3.—Four men, said to be members of the bakers' union, have been arrested on the charge of putting acid on hundreds of loaves of bread distributed among the Jewish residents on the West Side. A strike is in progress at a local bakery, and it is claimed that strike sympathizers threw the acid, also iodoforn, on wagon loads of bread and rolls after they had left the bakery. Police have confiscated many baskets of poisoned bread and are holding them for evidence. In the pockets of the four men arrested were found bottles of carbolic acid and packages of powdered iodoforn.

CONGRESS CONVENES

Washington, Jan. 3.—When the Senate reassembled today after the holiday recess, nearly every senator was in his seat and the galleries were crowded. Interest was shown in the proceedings because of the general belief that Foraker would render his attacks on the President through the Brownsville affair. The house convened at noon and adjourned at 12:10.

Complaint Filed Today.

Washington, Jan. 3.—The National Petroleum Association headquarters at Cleveland today entered complaint before the Interstate Commerce Commission against the Ann Arbor and other roads on the ground of discriminatory rates against members of the association and in favor of Standard Oil.

School Shoes

THE merit of our School Shoes is unquestioned. We have been exceedingly careful in the selection of this very important part of our stock. We realize that it is no use for us to sell a shoe to Boys or Girls going to school, that will not wear well. It would be folly to do so. Our reputation is, in a measure, due to the attention given this particular line. As in the past, we expect to sell for a long time to come, the kind of school shoes that will insure your continued custom. All we ask is a trial of our school shoes. Afterwards you'll come here of your own accord.
